

27-28 JAN 2018 BECOME A BEE- FRIENDLY FARMER

FREE WORKSHOP

Farming for Bees (and other beneficial insects)

Native bees and honey bees provide crop pollination services. Farming practices that encourage bees and pest-control insects make farms more profitable, reduce the need for chemical inputs, and increase biodiversity.

Workshop includes:

- Ways to enhance and manage farm land to increase beneficial insects and reduce input costs
- Recognizing pollinators and beneficial insects
- Hands on mason and bumble bee home making
- Demo site walk and technical guidance
- Free guides and plant starts

Presented by:

**POLLINATOR
PARTNERSHIP
CANADA**

HAT
Habitat Acquisition Trust

 **Saanich Native Plants**
Nursery and Consulting

**At Haliburton
Farm, Saanich**

**Expert speakers
and hands on
activities**

**Path to Bee-
Friendly Farm
Certification**

Lunch provided

**Sponsored by
Vancity and
Environment Canada**

SPACE IS LIMITED

In 100 words, tell us why you would like to be a Bee-Friendly Farmer! Include reasons you are interested and what you would like to do on your farm to help bees.
